

3/4 STREET—LIFT SESSIONS

Every second Friday morning during Term 3 between 8:50am and 9:10am parents/ grandparents/ carers were invited to come into the 3/4 classes to play some maths games with their child or grandchild.

Some of the games we played were:

~Doubling and halving game

~What's the number?

~Race to 20

~Multiplication games

~Battleships

When we get started we find a partner to play with, if we don't have an adult to play with. There were a lot of parents who came in during these sessions which was great.

We think the Lift idea is very good for people that don't get to spend as much time with their family, you get to have a good time with friends as well. It's very educational with maths and you can learn more about more stuff that you might not already know.

We are all thankful that carers/parents could come to play a game with their child. We hope it continues during Term 4.

By Brielle 3/4A, Trae 3/4B and Jasmine 3/4C.
